Dear Cawah,

Thank you for introducing the Reverse Osmosis drinking water system to our new office a year ago.

Comparing using distilled bottles water before, we noticed that we have a significant saving both on the cost of drinking water as well as administration work to deal with all those bottle water purchasing. Without all those bottles, we can fully utilize the space and have a more spacious pantry.

We are also satisfy with the prompt maintenance service that Life solutions providing us and the professionalism of their technicians. We would, therefore, happily to recommend Life Solutions to the companies in which looking for a total drinking water solution.

Yours truly,

  
Finance Director
