To Whom It May Concern

RE: REVERSE OSMOSIS DRINKING WATER DISPENSERS

We have now been using Life Solutions and their reverse osmosis drinking water systems since 2006, throughout our offices in Hong Kong.

We are very happy with the service we have enjoyed from Life Solutions and their professionalism makes working with them efficient and easy.

Environmental sustainability is of great importance to Hellmann Logistics and the positive environmental impact of using water filtration compared to bottled water was one of the main reasons for switching to Life Solutions.

We would recommend Life Solutions to other companies looking to improve their carbon footprint while maintaining a clean and healthy drinking water supply.

Yours sincerely,

Shannon Hellmann
