Dear Blake,

I would like to thank you for your teams continued support in providing your reverse osmosis systems in our Hong Kong offices. We have been using your equipment and services for almost 10 years and have appreciated the convenience they have provided by eliminating bottles associated with bottled water, the cost reduction, and most importantly the vastly improved sustainability characteristics of reverse osmosis.

We are always keen to provide sustainable solutions to our clients, and as such Life Solutions has been able to aid through their comprehensive service offering. Their attention to their client needs has ensured a strong working relationship between us, which we look forward to continuing.

Thanks again for your service and support to both us and the staff in our client organizations.

Best Regards,

John M. Sellery, AIA
