TO WHOM IT MAY CONCERN

We have recently instructed Life Solutions to install their Reverse Osmosis drinking water dispensers at the management floors in two of our serviced apartment buildings and in our head office.

It has long since been a concern that we spend a great deal of money on quality bottled water for our staff and also have to commit administrative time to the coordination of water bottle deliveries.

Life Solutions introduced us to their systems, which filter all the contaminants out of the tap water to leave just clean, healthy drinking water. We were most impressed by the comprehensive presentation they gave us and also by their efficient service. All our questions and concerns were answered quickly and professionally.

We are now able to provide our staff with good quality water, at an affordable cost. We can also rely on Life Solutions to maintain our new water dispensers under their comprehensive maintenance contract.

We can happily recommend Life Solutions and their service to any company or individual.

Yours faithfully

Elaine C. Young
